***Response to Amendment***

1. The amendment filed on October 14, 2003 has been entered.

***Election/Restrictions***

2. This application is in condition for allowance except for the presence of claims 1 to 11 non-elected without traverse. Accordingly, claims 1-11 have been cancelled.

***Allowable Subject Matter***

3. Claims 12-16 are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. The primary reason for allowance of the claims is because of the specific positioning of the elements of the ribbon cable used in PET scanners, namely the positioning of the insulator between the first and second shield layers. Steele (US Patent 4,835,394) discloses the elements of the cable and detection system, but the first and second shields cover the insulator. In Steele's invention the insulator is not between the first and second shields.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 2878

- a. US Patent 4835394- this reference contains many of the elements of the claimed invention but does not contain the specific ordering of the first and second shield layers with respect to the insulating layer.
  - b. US Patent 6653570-this reference contains a ribbon cable with shielding, but lacks a second shielding.
  - c. US Pre Grant Publication 20010045296- this reference discloses a shielding cable, but does not include all of the necessary elements.
